```

Download Cam

PATH PARAMETERS

analysis_id required	integer (Analysis Id)

QUERY PARAMETERS

format required	string (Format) Document format: 'word' or 'pdf'

Responses

> **200** Successful Response

> **422** Validation Error

GET /api/cam/download/{analysis_id}

Response samples

200 422

Content type
application/json

Copy

```
null
```

Preview Cam

PATH PARAMETERS

analysis_id required	integer (Analysis Id)

Responses

> 200 Successful Response

> 422 Validation Error

GET /api/cam/preview/{analysis_id}

Response samples

200 422

Content type
application/json

Copy

```
null
```

EWS

Get Ews Dashboard

PATH PARAMETERS

company_id required	integer (Company Id)

Responses

> **200** Successful Response

> **422** Validation Error

GET /api/ews/{company_id}

Response samples

200 422

Content type
application/json

Copy

```
null
```

Acknowledge Alert

PATH PARAMETERS

alert_id required	integer (Alert Id)

Responses

> **200** Successful Response

> **422** Validation Error

POST /api/ews/acknowledge/{alert_id}

Response samples

200 422

Content type
application/json

Copy

```
null
```

Get All Loans Ews Status

Responses

> **200** Successful Response

GET /api/ews/all-loans

Response samples

200

Content type
application/json

Copy

```
null
```

History

Get Analysis History

Responses

> **200** Successful Response

GET /api/history

Response samples

200

Content type
application/json

Copy

```
null
```

Health

Get Integrations Health

Returns the live connection status of all external APIs and services.

Responses

> **200** Successful Response

GET /api/health/integrations

Response samples

200

Content type
application/json

Copy

```
null
```

Get Full Health

Comprehensive check including Database, Cache, and all AI Models.

Responses

> **200** Successful Response

GET /api/health/full

Response samples

200

Content type
application/json

Copy

```
null
```

Live Health

Real-time health check of every backend component.

Responses

> 200 Successful Response

GET /api/health/live

Response samples

200

Content type
application/json

Copy

```
null
```

Health Check

Responses

> **200** Successful Response

GET /health

Response samples

200

Content type
application/json

Copy

```
null
```

Demo Reset

Responses

> **200** Successful Response

GET /api/demo/reset

Response samples
